## COURSE DESCRIPTION

- Course name:** **Use of Fire Extinguishers for Industrial & Commercial Staff**
- Course Description:** A two hour session covering the use of fire extinguishers sited at the clients' premises.
- Recommended attendance:** All the staff employed in industrial/commercial premises.
- Aim:** To train members of staff in the recognition and use of the portable fire extinguishers located at your site, in order that they might reduce the possibility of fire and extinguish a small fire if one occurs.
- Learning objectives:** Having completed the course the delegates will be able to:
- Recognise the correct extinguisher to use on various types of fires.
  - Actuate an extinguisher correctly.
  - Deal with a small fire.
- Subjects Covered:**
- The fire triangle.
  - Methods of extinguishing small fires.
  - Identification of extinguishers.
  - Use of extinguishers.
- Method:** The learning objectives will be achieved by theoretical input supported by powerpoint presentation, video playback, delegates' notes and practical exercises with contained fires using operational equipment.
- Assessment:** A test will be set to ensure a level of competence has been achieved and a certificate awarded to those delegates who reach a satisfactory standard.
